📍 Las Rozas de Madrid, Madrid

Profile

I am a highly motivated Full Stack developer passionate about software development. I possess a strong knowledge of web technologies, including JavaScript, TypeScript, PHP, React, Next, Node, SQL, and NoSQL. My goal is to create exceptional user experiences, focusing on interactive design and intuitive functionality.

Furthermore, I have experience using web development tools such as Git, FileZilla, and Visual Studio Code. These tools enable me to efficiently manage version control and collaborate with other developers.

My primary objective is to leverage my expertise to contribute to the company's growth and success while continually developing and strengthening my skills.

Education

CFGS – Multiplatform Application Development

Sep 2021 – Jun 2023

U-tad | University of Technology, Arts and Design, Madrid

Full Stack Developer

Sep 2023 – Jan 2024

ThePower Business School, Madrid

JavaScript · TypeScript · React · Next.js · Node.js · Express · PostgreSQL · MongoDB

Employment

Web Developer Intern

Mar 2023 – Jun 2023

Alebat | Madrid

During my internship, I carried out training activities in the software development field, which included Rest service testing, e-commerce development with WordPress, digital content transcoding, and website creation for clients. These experiences provided me with practical knowledge and a strong foundation in the software development field.
