PROFESSIONAL SUMMARY

Junior Full Stack Developer with a strong combined background (Higher Technical Diploma in Cross-platform Application Development, Full Stack Bootcamp and a Computer Engineering degree in progress) and prior professional internship experience in web development. Specialised in JavaScript, TypeScript, React.js, Next.js, Vue.js, Node.js, Express.js and MongoDB, with several deployed personal projects featuring JWT authentication, third-party API integrations (OpenAI, Brevo) and responsive design with Tailwind CSS. Advanced English, intermediate Portuguese and French. Looking for a first professional opportunity to contribute solid technical knowledge, fast learning ability and a strong commitment to code quality and user experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Vue.js, Tailwind CSS, Responsive Design, Mobile-first, UX/UI, Accessibility

Backend: Node.js, Express.js, REST APIs, JWT, bcrypt, authentication, OpenAI API, Brevo API, Wikipedia API

Databases: MongoDB, Mongoose, SQL

Tools & DevOps: Git, GitHub, GitLab, Vercel, npm, Postman, WordPress, VS Code

Methodologies: Agile, Scrum, Trello, Code Review, version control, teamwork

Other: Recharts (data visualisation), state management, sessionStorage/localStorage, performance optimisation, cross-browser testing

PROFESSIONAL EXPERIENCE

Web Developer — Internship

March 2024 – August 2024

Alebat Educación | Madrid, Spain

- Implemented new features on corporate websites using Vue.js, contributing to continuous product improvement and a better user experience.
- Maintained and managed content across several WordPress-based websites.
- Collaborated with the development team on bug fixing and technical improvements through code reviews and version control with Git/GitLab.
- Implemented responsive design and performance optimisations to reduce load times and improve accessibility across devices.
- Performed cross-browser debugging and testing to ensure compatibility on major browsers (Chrome, Firefox, Safari, Edge).

FEATURED PROJECTS

FinTrack — Full Stack Personal Finance Management App

2025

Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Brevo API, OpenAI API | [Live demo](#) · [GitHub](#)

- Full stack application for personal finance management with secure JWT authentication and a complete sign-up, login and password recovery flow via email.
- Interactive dashboard with data visualisation built on Recharts: spending by category, monthly income/expense trends and budget tracking.
- Integrated the OpenAI API to generate realistic demo data, enabling a friction-free instant onboarding for new users.
- Transactional email system powered by the Brevo API (welcome, password recovery, notifications).
- Fully responsive UI with Tailwind CSS and a decoupled frontend/backend architecture deployed on Vercel.

Impostor Game — Multiplayer Web Game

2025

Stack: Next.js, React.js, TypeScript, MongoDB, Tailwind CSS, Wikipedia API | [Live demo](#) · [GitHub](#)

- Mobile-first web game for groups featuring dynamic role assignment, multi-category selection and a configurable number of players and impostors.
- Integrated the Wikipedia API to automatically retrieve contextual images for each secret word.
- Persistent configuration between rounds using sessionStorage, plus a pass-the-phone flow to reveal roles secretly.
- Optional hint system for the impostor and a mobile-first responsive design built with Tailwind CSS and TypeScript.

Web Book — Online Library Platform

2024

Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, JWT, bcrypt | [GitHub](#)

- Full stack application for catalogue, loan and favourites management with JWT authentication and encrypted passwords (bcrypt).
- User roles (admin / user) with protected routes and tailored dashboards for each role.
- Search, filters, pagination, review and comment system, plus real-time stock and loan management.

EDUCATION

BSc in Computer Engineering (in progress)

2025 – Present

Universitat Oberta de Catalunya (UOC) — Spain

Full Stack Developer Bootcamp

2023 – 2024

The Power Business School

Higher Technical Diploma in Cross-platform Application Development (DAM)

2021 – 2023

U-tad — Centre for Technology and Digital Arts

LANGUAGES

Spanish: Native

English: Advanced

Portuguese: Intermediate

French: Intermediate
